

Marcus J. Ranum
NBS LICENSE AGREEMENT
August 2004

PREAMBLE: Marcus J. Ranum has developed the NBS Anomaly Detection System, a software kit for detecting events that have never been seen before. Under the terms of this software license NBS is distributed in source code form, with all modules written in the C programming language so that it runs on many UNIX or UNIX-like platforms. NBS is the product of Marcus Ranum and is being made available to you under the terms and conditions of this NBS software license.

LICENSE.

Marcus Ranum grants you a non-exclusive, non-transferable license for the NBS programs ("NBS") and its associated documentation, subject to your acceptance of all of the terms and conditions contained in this software license. This license permits you to use, copy, and modify NBS solely for the internal, non-commercial, use of your organization. NBS, if modified, must carry prominent notices stating that changes have been made, and the dates of any such changes. All rights not expressly granted herein are reserved to Marcus Ranum.

LIMITATIONS ON LICENSE.

a. You may only use, copy, and modify NBS as expressly provided for in this Agreement. You may not redistribute or otherwise make available NBS to another person, organization or entity. You must reproduce and include this Agreement, and Marcus Ranum's copyright notices on any copy and its associated documentation even though said use, as required by this license, is restricted to your internal use only.

b. The use of NBS is limited to your internal, non-commercial use only. Neither NBS, in its entirety, nor any part or element of NBS, is being licensed to you for use with, or in, any hardware, firmware, software, program or other product (i) which is sold; (ii) for which you receive any revenue; or (iii) which is provided by you (even for free) in conjunction with any commercial activity.

NO Marcus Ranum OBLIGATION.

You are solely responsible for maintaining your copy of NBS and the security of the operating environment in which NBS may be used. You are solely responsible for all of your costs and expenses incurred in connection with your use of NBS or any application program here under, and Marcus Ranum shall have no liability, obligation or responsibility therefor. Marcus Ranum shall have no obligation to provide maintenance, support, upgrades, or new releases to you.

NO WARRANTY OF PERFORMANCE.

NBS and its associated documentation are licensed "AS IS" without warranty as to their performance, merchantability, or fitness for any particular purpose. You must accomplish a substantial amount of development, modification, installation and integration work on your own and with your own technical resources and talent before NBS will provide any useful information. The entire risk as to the results and performance of NBS is assumed by you. Should NBS prove defective, you assume the entire cost of all necessary servicing, repair, or correction of said defect and any consequences of such defect.

LIMITATION OF LIABILITY.

Neither Marcus Ranum nor any other person who has been involved in the creation, production or delivery of NBS shall be liable to you or to any other person for any direct, indirect, special, incidental, consequential, or punitive damages, even if Marcus Ranum has been advised of the possibility of such damages.

TERM.

The license granted here under is effective until terminated. This license shall automatically terminate without notice if you breach any of the provisions hereof. You may terminate this license at any time by destroying NBS, any compiled object code derived therefrom, and its associated documentation.

GENERAL.

This Agreement shall be governed by the laws of the State of Pennsylvania.
